

## New Product Bulletin!

Two revolutionary new suction guns designed by Arlyn "Big A" Westrate have entered the marketplace. Big A's suction guns deliver more media to the part than any other gun on the market--therefore decreasing your blast time and increasing your overall productivity. Take a look below to learn more about this exciting new product in the surface finishing industry!

***Deliver more media to your part's surface in less time!***

***Increase the size of your spray pattern!***

***Replace inserts and air jets within minutes!***

***Urethane construction will hold up better than steel in a blasting environment!***

**"Big A"**

Just give me a call for a sample blast gun. I'll send it out to your attention. If you like it, I can get you as many as you need. If for some reason it does not perform to your expectations, send it back at no charge to you... you know the number:

**1-800-SBS-BIGA**
