

Your System Custom...for Your Specific Application

Design & Engineering

Each of our systems are designed to fit your exact needs. All drawings are in AutoCad 3D and await customer approval prior to production.

All systems utilize the highest quality components available. Grit blasting is an abrasive environment, and we build our machines to last.

Manufacturing

Runoff & Approval

All systems are runoff at our facility and await customer approval prior to shipping. At SBS we have never cost a customer a single hour of downtime due to a late shipment.
